MEMORANDUM FOR THE CHAIRMAN, COMPUTER SECURITY SUBCOMMITTEE
OF THE UNITED STATES INTELLIGENCE BOARD

Subj: Security Responsibilities in Interagency Computer
Terminal Links (U)

1. (C) The proposed statement which would establish security responsibilities in interagency computer terminal links has been reviewed. This office concurs in the basic concept of the proposal for some computer operations but the concept is considered to be invalid for network configurations inasmuch as the "central" processing unit in a network configuration functions only in a switching center capacity. As a result, it is recommended that this draft be expanded to include policy that would also be valid for computer networks.

ROBERT B. CAMERON
Navy Member
Computer Security
Subcommittee

*or, as Cameron told
CSS, specifically
exclude networks.*

GROUP 1

Excluded from automatic
downgrading and
declassification

NAVY review completed.
